## PRODUCT INFORMATION & INSTRUCTIONS

1

Buff and Dehydrate (**B2 nail prep**)

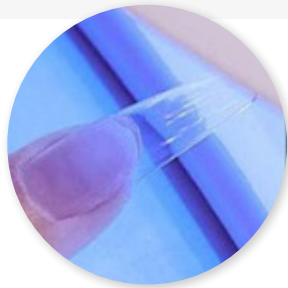

2

Apply a small amount of Adhesive Tip Gel on the underside of the soft gel tips

3

Place the round edge of the tip next to your cuticle line and lightly press down to reach the free edge of the nail.

4

Cure a single nail for **5 seconds** using an LED flashlight, Mini lamp, or full lamp. Repeat for all 5 nails. When finish curing all 5 nails under LED Lamp for a full 30 Sec.
