

TPO FREE

TPO FREE

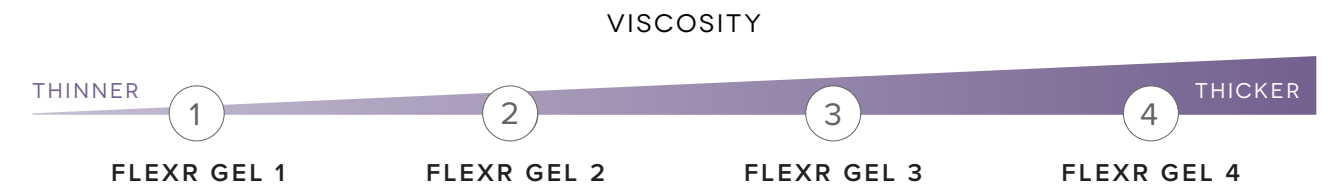

As regulatory standards evolve, Keystone Industries remains at the forefront of innovation with its TPO-free formulation. Anticipating future compliance needs, Keystone has successfully developed an alternative formula that performs on par with our current formulation, without the use of TPO.

This booklet highlights all of our products that are already TPO-free.

BUILDER GELS

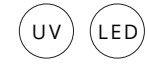

FLEXR GELS - TPO AND HEMA FREE UV LED

This gel is formulated as a low heat, one-phase builder gel. It combines all the elements of a perfect builder gel for adhesion and strength, but available in 4 different viscosities. These viscosities allow you to rely on the performance of the gel but across all different application needs.

PROLINE GEL - TPO AND HEMA FREE

Proline Gel is a flexible, one-phase gel that cures to a high-gloss finish. This self-leveling gel is ideal for sculpting over tips. This gel can be used to extend the nail bed or hide imperfections.

GUMMY BASE GEL - TPO AND HEMA FREE

Gummy Base Gel is a versatile 2-in-1 pigmented base coat that also functions as an overlay gel. Expertly formulated with a thicker consistency for superior adhesion, it smooths ridges on the natural nail while ensuring up to two weeks of flawless wear. Available in a clear base as well, it's the ideal foundation for a long-lasting, professional finish.

RAPID RELEASE™ PEEL OFF BASE | 4141000

With its patented technology, Rapid Release is the ultimate solution for long-lasting, effortless wear with fewer steps and a flawless finish.

The revolutionary Rapid Release Peel-Off Base redefines nail care technology! Say goodbye to lengthy removal processes and hello to effortless, hassle-free peel off removal.

This innovative TPO- and HEMA-free formula air-dries quickly to a tacky finish, eliminating the need for a UV or LED lamp, and streamlining your routine — no buffing or primer required!

PATENT US 11445794 & EU EP4371618A2

LumiGloss No Tack Top Gel - TPO AND HEMA FREE

LumiGloss No Tack Top Gel is our newest go-to top gel for a high shine, and tack-free finish. This Top Gel is uniquely formulated to deliver the same quality standards as our other top gels, but with the additional benefit of being HEMA and TPO free.

GELPOLISH SYSTEMS

Keystone Cosmetics & Sciences offers a wide range of patented and patent-pending gel polish systems designed to meet diverse needs. From long-lasting wear to easy removal systems, we continuously innovate to advance our technology. In addition to offering a wide selection of ready-to-use options, we specialize in creating custom, exclusive formulas tailored to your specific requirements.

GEL POLISH

Introducing the industry's first vegan, TPO, HEMA and DI-HEMA free Gel Polish System.

This leap forward in formulation presents added features and benefits applicable to both professional and retail nail markets.

Exceeding expectations in color coverage and soak off removal, this system can be elevated further by adding Rapid Release peel off base for non-soaking removal.

COLOURIZE GP

Second generation gel polish specifically formulated as a cost-sensitive gel polish, giving you a competitive advantage without sacrificing quality.

Its universal colors are extremely versatile and work with any base or top coat. Available in two formulations.

Colourize GP is HEMA and TPO free!

PRO BASE TPO FREE 4029501

The Pro GelPolish Base TPO Free offers the application and compliance of the Pro GelPolish Base TPO/ Hema Free with even more adhesion and longer wear.

PRO BASE TPO AND HEMA FREE 4029502

The Pro GelPolish Base TPO/ HEMA Free formula strikes the perfect balance between durability and removal.

BASE GEL- TPO AND HEMA FREE 4028998

Enjoy beautiful nails without the long-term commitment. The R-GP Base Gel creates a flawless base for 10+ day wear and ensures quick and effortless removal.

MATTE SOAK OFF - TPO AND HEMA FREE 4029000

Matte Top Gel is a thin top gel designed to transform glossy nail color into a modern, trendy matte finish. After curing, remove tacky layer to reveal the matte look that lasts.

O-3 TOP GEL- TPO AND HEMA FREE 4012001

O-3 Top Gel is a high shine and durable finishing gel that can be used for all gel systems. This thin gel is self-leveling, has low odor, low heat, and produces a hard shiny finish.

TOP GEL - TPO AND HEMA FREE 4028999

This Top Gel is a high shine finishing gel. After curing, wipe with a high Shine Wiping Solution to reveal the mirror finish.

PREP & PRIMER ACCESSORIES

ULTRABOND - TPO FREE | 4020001

Our Ultrabond Primers are MMA free, used to promote adhesion to natural nails. Safer than acid primers, Ultrabond Primers do not sacrifice performance. It is low in odor and it does not burn the natural nails or cuticles. Ideal for use with all gel and acrylic systems.

NAIL ART

BLOOMING GEL - TPO AND HEMA FREE | 4026134

Unlock endless design possibilities with our Blooming Gel. This incredible product enables you to effortlessly create gorgeous “aquarelle” art, floral designs, captivating animal prints and mesmerizing marble effects with your GelPolish collection. Blooming Gel is a universal product that can be used on top of any GelPolish, color gel or acrylic color. Blooming Gel is transparent and can therefore be used over any color, bearing in mind that contrasting colors create the most dramatic effects.

FOIL TRANSFER AIR DRY BASE COAT - TPO AND HEMA FREE 4141002

Air Dry Foil Transfer Base Coat is specifically formulated to transfer nail art designs from the foil directly to your nails without cyanoacrylate or LED/UV Gel. Ideal for creating your own nail art.
