# FLEXBOND HF

Flexbond HF is Keystone's next-generation in nail primers. This HEMA-free primer is formulated to deliver the reliable performance you expect from Keystone. Flexbond HF delivers strong Ultrabond-level adhesion without HEMA. Compared to earlier HEMA-free solutions, Flexbond HF ensures improved stability, consistency, and reliability, making it an ideal choice for high-performance nail systems.

**FEATURES & BENEFITS:**

- **HEMA-free**
- **Excellent adhesion**: Promotes adhesion of nail enhancements to natural nails
- **Gentle on natural nails:** Less aggressive than acid primers
- **Low odor:** Pleasant salon experience
- **Versatile:** An excellent addition to all nail enhancement systems

**HOW TO APPLY INSTRUCTIONS:**

- Buff the natural nail to remove shine.
- Apply a coat of B-2 Nail Prep to the natural nails to dehydrate the nail plate.
- Apply a coat of an Ultrabond and allow product to dry for approximately 30 seconds (product will remain slightly tacky).
- Continue with your desired nail service following the application instructions.

**Warning/Disclaimer:**
Shake well before use.

**Packaging Requirements (if applicable):**
Product is light sensitive. Recommended: Amber bottle.
